INDUSTRIAL MACHINERY OUTPUT INCREASESMOSCOW MACHINERY PLANTS UP PRODUCTION -- Vechernaya Moskva, No 166,
14 Jul 49

The "Metallist" Plant in Moscow produces chains for hoisting machinery used in all branches of the national economy. The plant completed the 6-month plan for finished goods production in May. The 1949 plan for basic orders was fulfilled on 14 July. Thousands of escalator steps for the Moscow subway were produced.

The plant has now liberated the sum of working capital by 14 days and released 200,000 rubles to the State. Excess goods in stock have been reduced by almost 340,000 rubles.

Considerable reconstruction work has been done in the plant. A new forge and heat-treatment shop is being built to handle many operations previously done in other plants.

Vechernaya Moskva, No 166, 16 Jul 49

The Moscow Rostekhnicheskij Plant, under the Main Administration of Construction-Machine Building, Ministry of Construction- and Road-Machine Building, makes automatic suction pumps for pumping water from ditches, 40- and 18-meter blocks with weight capacities of 0.5 ton and 0.3 ton respectively, powerful derrick crane with a weight capacity of 5 to 25 tons, and many other machines used in construction work. It will begin production of 25 types of machines in 1949 and will soon begin serial production of pumps for spraying plaster on walls and ceilings.

Moskovskiy Komsomolets, No 86, 14 Jul 49

The Moscow Plant imeni Budenny has started producing snow machines for Moscow kolkhozes. These machines are produced above the basic production program. About 30 industrial enterprises in Pervomayskiy Rayon in Moscow took part in the production of these machines. The "Serp i molot" Plant manufactured the basic parts, including the engine and shaft; the "Moskabel" Plant produced the conserving tanks; the Railroad-Car Repair Plant imeni Voytovich made wooden parts for the saw gear.

On 15 July the Plant imeni Budenny shipped the first lot of snow machines to kolkhozes of Podolskiy Rayon, Moscow Oblast. During 1949, the plant produced more than 2,000 of these machines.

MOLDAVIAN PLANTS PRODUCING MACHINERY -- Sovetskaya Moldaviya, No 136, 8 Jul 49

The Tiraspol' Mechanized Plant imeni Kirov builds stone-cutting machines. F. Perkov is plant director.

Sovetskaya Moldaviya, No 142, 16 Jul 49

The "Leskhrommash" (Forestry Machinery) Plant, Krasnoarmeyskiy Rayon, Moldavian SSR, produces tree-planting machines designed by Stalin Prize Laureate A. Nedashkovskiy.

KOVO-KRAMATORSK PLANT MAKES HYDROTURBINE PARTS -- Leningradeskaya Pravda, No 136, 16 Jul 49

The Novo-Kramatorsk Machine-Building Plant imeni Stalin has adopted high-speed turning methods in making large metal parts. A cutting speed of 50 to 100 meters per minute is attained where formerly only 8 meters per minute were cut.

Sixty-ton drums and 60-ton wheels for hydroturbines are now being made by high-speed method. In the No 7 machine shop.

PETROZAVODSK PLANT MAKES NEW MACHINE FOR LUMBER MILLS -- Leninskoye Znamye, No 131, 5 Jul 49

The Petrozavodsk Metal Plant has begun production of a new machine for sawing logs. The machine is installed on a metal carriage which makes its movement easier. Sawing logs attached to these machines can produce up to 50 cubic meters of finished lumber in one shift. Each machine is equipped with an electric motor. The plant is receiving an order from the Ministry of Timber and Paper Industry, Far East, for 100 of these machines. It has already produced 20.

UKRAINIAN TRUST SELLING WOODWORKING MACHINES -- Sovetskaya Belorus'sya, No 140, 16 Jul 49

The "Uksteleprom" (Precision Machine-Tool Industry) Trust has the following woodworking machines for sale: planers, lathes, drilling and slotting machines, 50-ton spring balances, 50-ton eccentric presses, 12-millimeter bench drilling lathes, and sharpening and buffing machines.

Address: "Uksteleprom," 12 Vladimirsky Lebedevaya ulitsa, Kiev, -- 100000.
